## MAHABHARAT 2 - War that was fought on Facebook and Twitter

This is indeed a very long post. But I advice you to read completely from top to bottom, I promise you that it would be an interesting reading. To generate curiosity (interest) first read messages form 68 to 76 with background and or notes.

1. Message posted on Thursday, September 22, 2016 at 12:50pm UTC+05:30 on FB.

"This message is from "most eligible bachelor" to "sab se bada gunda". All others please ignore it."sab se bada gunda",I know you are looking for feedback.So, here it is.I am enjoying your hospitality at "resort".But, I am looking for permanent solution of this deadlock. So, I suggest honest and serious steps from your side. I have left you with no option, I will marry with girl of my choice at right time.I am getting old but I am not desperate. I won't move to USA or for that reason any other country unless there is permanent settlement of outstanding issues.I suggest one to one talk with head of your organization at my residence at Ranchi.Be prepared for division of "assets" what we are fighting for.But before any such talk I need to discuss it face-to-face with my well-wishers . I am providing you list of people who I want to discuss it. You will have to arrange their visit to Ranchi. They are Nishant Kumar, Alok Sharma, Rachna Sharma, Mrityunjay Jha, Upendra Sinha, Dr Sugiti Sinha, Reena Varghese (sharma), Kishori Sharan,Wen Shang,Chirag Patel and Anil Jaglan.I know you are trying to suffocate me financially, so all your activity in this direction has to stop.I am also suggesting three steps from your side as confidence building measure.First, Provide Wi-Fi access at "resort", Second, fix my diagnosis and declare me fully fit and third, within a month return my and fathers money with interest you taken using Brajesh.Its my life and I will lead the way I want. I will chose whom to talk and whom to ignore.I won't accept your intervention in this regard.I have not surrendered its, only ceasefire.I am looking forward to resolve this issue as soon as possible.There is no use in fighting when you know you can't leverage my support system anymore. So, No tricks This time. Best wishes."

**Background** : I was previously hospitalized to CIP Ranchi then subsequently to NIMHANS Bangalore. In NIMHANS doctors gave me a deal that I would cooperate and in return they changed diagnosis from "Schizophrenia" to "Persistent Delusional Disorder" and stopped all medication.So I thought CIA wanted to negotiate so I wrote this message.

2. Message posted on FB Friday, September 23, 2016 at 12:20pm UTC+05:30

"I am pissed.No more games, you are warned."

**Background** : After my previous message they started playing games.

3. Message posted on FB Saturday, September 24, 2016 at 12:12pm UTC+05:30

"I can understand that Its hard for you to swallow the fact that your options are exhausted. Just Chill! You have infinite resources but you lack intelligence.I understand your capabilities, while you are still trying to learn mine.I gave a serious proposal to solve the deadlock, but you still want to play games.Its your choice,I can continue playing games for my lifetime. as well.If you think only you can manipulate, you are mistaken.Good Luck."

**Note** : After this message they started bullying me and intimidating me.It was clear this message hot hard on them.To make their life difficult I also changed profile picture to "dancing anjan"

4. Message posted on FB Monday, October 3, 2016 at 12:23pm UTC+05:30

"यदा यदा हि धर्मस्य ग्लानिर्भवति भारत। अभ्युत्थानमधर्मस्य तदात्मानं सृजाम्यहम्, परित्राणाय साधूनां विनाशाय च दुष्कृताम्। धर्मसंस्थापनार्थाय सम्भवामि युगे युगे!"

**Background** : This is famous lines from Bhagwat Gita.Where Lord Krishna said it to Arjuna.The simple translation of the verse is "Whenever there is decline of righteousness, O Arjuna, and rise of unrighteousness, then I manifest Myself."

"Back to home after 3 months. What did I miss?"

**Note** : Spent 3 months in CIP and NIMHANS combined. Message was posted after reaching home in Ranchi.

5. Message posted on FB Thursday, October 27, 2016 at 6:17am UTC+05:30

"जिन्दगी को बहुत प्यार हम ने किया मौत से भी मोहब्बत निभायेंगे हम रोते रोते जमाने में आये मगर हंसते हंसते जमाने से जायेंगे हम."

**Background** : This is couple of lines from a famous Hindi song.It means I loved the life a lot, I will embrace death with smile.

6. Message posted on FB Friday, October 28, 2016 at 6:10am UTC+05:30

"Value of assets of Vigour Solutions Incorporated is significant or comparable to India's GDP.May be in Trillion.More than 3 Billion has been spent by them to buy people and entities."

7. Message posted on FB Friday, October 28, 2016 at 5:36pm UTC+05:30

"Most likely, assets of Vigour Solutions Inc are patents."

**NOTE** : **Message 6 and 7 combine was like atom bomb explosion on CIA, Obama, Hillary and Narendra Modi.Estimate of 3 billion USD was so accurate that conspirators were dumbfounded. After that they tried to bully me. One of guy from my friend list was used and he posted a message on his FB wall that was available on my FB timeline. I don't remember complete message but it was something like this.**

"You (anjan) are involved in intellectual property theft.You are involve is wire tapping and hacking. Law enforcement agency of India is after you.Law enforcement agency of USA is after you.I (CIA) is after you. Have a sleepless nights."

8. Message posted on FB Friday, October 28, 2016 at 6:41pm UTC+05:30

"They don't stand a chance until they figure out "internet activists" who are helping me.With all the capability they have, they won't be able to find out them in next 20 years. I need less than 2 years to collect facts and figures.They have no idea how we communicated."

**Background** : Conspirators were trying to reach anyone and everyone who knew me and pay them handsomely. In past a few "internet activists" had hacked a forum showing solidarity with me.My message to conspirators were they can never reach every one until they figure out "internet activists".

9. Message posted on FB Friday, October 28, 2016 at 7:39pm UTC+05:30

"In best interest of humanity, common man in a society should be materialistic and afraid of God.This is necessary for continued progress of human race."

**Note** : After profound posts I switched to my idea of world in general and India in particular.

10. Message posted on FB Saturday, October 29, 2016 at 3:09am UTC+05:30

"Thought of the day : If you have power, never misuse it. Good Morning."

11. Message posted on FB Saturday, October 29, 2016 at 5:49am UTC+05:30

"In future, all software product, search engines, OS or whatever it is, it should be open source.Until, this happens,my choice of search engine is duckduckgo.This is necessary to prevent misuse of power. <http://www.duckduckgo.com>"

**Background** : A few big search engines were modified for terms like "anjan bhushan","anjan bhushan domains".

12. Message posted on FB Saturday, October 29, 2016 at 7:49am UTC+05:30

"There is GOD. Teachings of Bhagwat Geeta is words of God.No religion is perfect. But whatever available choice we have, Sanatan Dharma is the best available choice we have. Because its not religion, its way of life."

13. Message posted on FB Saturday, October 29, 2016 at 9:05am UTC+05:30

"I don't know all languages but whatever I know about languages Sanskrit is most structured language available. So, future generations should be encouraged to learn Sanskrit. So that whole world may speak in one language. It will solve language problem of the world."

14. Message posted on FB Saturday, October 29, 2016 at 10:21am UTC+05:30

"Democracy is best choice for type of government available. Because it is self-cleaning and self-correcting in nature. Among all world power of today China doesn't have democracy. We will have to find a way to change it. Once that happens rest of the countries of the world which are non democratic will follow."

15. Message posted on FB Saturday, October 29, 2016 at 1:54pm UTC+05:30

"Many people have inferiority complex,but some people have superiority complex. If studying in IIM and having a website of your venture in Wordpress makes you arrogant you are good for nothing.Having a photo session with PM and CM doesn't show that you have talent, it can be managed as well. One of such guy was in my friend list, I blocked him. He was mentally bankrupt and had verbal diarrhea as well. He had created many Bihar, Jharkhand group and had posts having no substance. One of my past colleague Prasanna also had superiority complex, that's why I hated him. Such people in society should be discouraged at all cost."

**Background** : There was a guy in my friend list,I asked some questions and he replied like arrogant guy.Previously he has posted managed photo with PM Modi and CM Raghubar Das.I blocked him.Also one of the well wisher advised two things after this post.He asked me why I allow politicians to work against me (anjan). He further suggested that I should not take names because I have no idea how many lurker are reading my posts.

They have too much capability and power without accountability. This is necessary to prevent misuse of power.”

17. Message posted on FB Saturday, October 29, 2016 at 2:27pm UTC+05:30

“The biggest problem of Bihar and Jharkhand is that society is deeply divided along caste lines. Caste is a reality in India but there should be some mechanism to abolish it with time. Like, government should have some incentive for couples who do inter caste marriage. There can be many other way by which caste line can be diminished with time, which I will propose later.”

18. Message posted on FB Saturday, October 29, 2016 at 5:36pm UTC+05:30

“State controlled media should be free, independent and reliable. There should be some mechanism to ensure it. Government should only care about financial aspect of it. BBC is a good example of that but we need something better. This will also ensure that state media will be able to compete with private media.”

19. Message posted on FB Saturday, October 29, 2016 at 5:43pm UTC+05:30

“People and entities with superiority complex should get it cured before it becomes cancer from them!”

**Note** : This was message to all conspirators in general and CIA in particular.

20. Message posted on FB Saturday, October 29, 2016 at 6:13pm UTC+05:30

“Indian society should be more tolerant about "Public display of affection" it may be movie or in public. Its human nature to seek intimacy. what the fuss about this news.”

21. Message posted on FB, Saturday, October 29, 2016 at 9:20pm UTC+05:30

“School education should be free around the world, so that everyone has access to it. Also, it should be basic right of every human being. Medium of instruction of school education should be primary language spoken in home, if possible mother tongue. Because, everyone should learn basis concept of math and science. so that people don't struggle with alien language while learning concepts of math and science. Any language can be learned at any stage of life, if needed.”

22. Message posted on FB, Sunday, October 30, 2016 at 5:57am UTC+05:30

“Major population of India is dependent on Agriculture. But agriculture in India is broken. At some point of time, India's economy will shift to manufacturing and knowledge based economy. Even then, we must fix agriculture. The biggest problem in Agriculture is that land is divided in small pieces. Government in all states should take initiative to consolidate land in bigger size. So, that modern technology can be applied for farming. There can be many other solution to improve health of Agriculture in India in general. Which I will propose later.”

23. Message posted on FB Sunday, October 30, 2016 at 10:24am UTC+05:30

“Between Capitalism and Socialism. Capitalism is obviously a better choice than Socialism. There should be reward linked with individuals who have talent and contribute to progress of society and world. It also ensures that human being continuously strive for more knowledge. This creates healthy competition in society and only excellence is rewarded. In Socialism, there is no reward for effort. All human being are not born equal, Socialism doesn't make a distinction between them. It creates nepotism in society. More on this topic later.”

24. Message posted on FB Sunday, October 30, 2016 at 6:20pm UTC+05:30

“Reservation in government jobs in India needs overhaul. Reservation should continue till social equality is achieved. However, there should be reservation available to one generation only, if anyone takes benefit of reservation subsequent generations should not get benefit of reservation. There should be no reservation in promotion. We should also have significant quota for people who do inter caste marriage, because indirectly it also contributes to the cause. Total quota of reservation should not exceed 50% of total positions. Also, reservation policy should be reviewed after every 10 years.”

25. Message posted on FB Monday, October 31, 2016 at 3:52am UTC+05:30

“I wrote my first poem when I was in class 3rd, shown it to mom. She started crying and said - "what you want to be a journalist, they struggle for their lively hood, give me word you will never write poems again". I stopped writing poems for few years and then secretly wrote poems afterwards. :-)”

**Note** : I started talking about my life and upbringing.

26. Message posted on FB Monday, October 31, 2016 at 11:46am UTC+05:30

“मृतकों से पटी हुई भू है, पहचान, कहीं इसमें तू है। 'अम्बर में कुन्तल-जाल देख, पद के नीचे पाताल देख, मुट्ठी में तीनों काल देख, मेरा स्वरूप विकराल देख। सब जन्म मुझी से पाते हैं, फिर लौट मुझी में आते हैं। 'जिह्वा से कढ़ती ज्वाल सघन, साँसों में पाता जन्म पवन, पड़ जाती मेरी दृष्टि जिधर, हँसने लगती है सृष्टि उधर! मैं जभी मूँदता हूँ लोचन, छा जाता चारों ओर मरण। 'बाँधने मुझे तो आया है, जंजीर बड़ी क्या लाया है? यदि मुझे बाँधना चाहे मन, पहले तो बाँध अनन्त गगन। सूने को साध न सकता है, वह मुझे बाँध कब सकता है? 'हित-वचन नहीं तूने माना, मैत्री का मूल्य न पहचाना, तो ले, मैं भी अब जाता हूँ, अन्तिम संकल्प सुनाता हूँ। याचना नहीं, अब रण होगा, जीवन-जय या कि मरण होगा। 'टकरायेंगे नक्षत्र-निकर, बरसेगी भू पर वह्नि प्रखर, फण शेषनाग का डोलेगा, विकराल काल मुँह खोलेगा। दुर्योधन! रण ऐसा होगा, फिर कभी नहीं जैसा होगा। 'भाई पर भाई टूटेंगे, विष-बाण बूँद-से छूटेंगे, वायस-श्रृगाल सुख लूटेंगे, सौभाग्य मनुज के फूटेंगे। आखिर तू भूशायी होगा, हिंसा का पर, दायी होगा।' -रश्मिरथी / तृतीय सर्ग / भाग 4

**BACKGROUND** : The lines are taken from Rashmi Rathi. In Mahabharata, Lord Krishna went to Kauravas for peace proposal. But arrogant Duryodhana tried to tie Krishna himself. Then Krishna showed his monstrous form and said mocked Duryodhana by saying “tie me sure, but do you have this big of a rope”. Why I posted this is because conspirators (CIA, Modo, Hillary and Obama” where trying to reach everyone and anyone who knows be

from birth. This attempt was same as trying to tie Lord Krishna by rope.

27. Message posted on FB Monday, October 31, 2016 at 3:16pm UTC+05:30

“दो न्याय अगर तो आधा दो, पर, इसमें भी यदि बाधा हो, तो दे दो केवल पाँच ग्राम, रखो अपनी धरती तमाम। हम वहीं खुशी से खायेंगे, परिजन पर असि न उठायेंगे! दुर्योधन वह भी दे ना सका, आशीष समाज की ले न सका, उलटे, हरि को बाँधने चला, जो था असाध्य, साधने चला। जब नाश मनुज पर छाता है, पहले विवेक मर जाता है।”

**BACKGROUND** : Lord Krishna said to Duryadhana that as per law Pandvas should get half of kingdom, but if that was not possible, gave them 5 villages. Which Kauravas refused. My case was similar, In 2011, I did propose CIA to give me 23% for my friends, family and myself. Which they refused

28 Message posted on FB Tuesday, November 1, 2016 at 6:16am UTC+05:30

“My first guru Sahdeo Mandal use to say, Mahabharata did happen but many events and facts has been modified or exaggerated with time. So, he gave me Arya Samaj Version of Mahabharata. Which I read when I was in class 3.”

29. Message posted on FB Tuesday, November 1, 2016 at 6:20am UTC+05:30

“Other gurus which I had in life besides Sahdeo Mandal are Mrs Sushma Sinha, Mahto Sir, Nishant Kumar, Kishori Saran and Chirag Patel. I am indebted to them.

30. Message posted on FB Tuesday, November 1, 2016 at 9:20am UTC+05:30

“My parents made me independent and responsible from childhood, I learned riding Hero cycle in class 3, started riding Bajaj scooter while I was in class 6 and father encouraged me to learn driving when I was in class 10. It was second hand Padmini (fiat) car. I was given responsibility to buy vegetables from market when I was in class 3. I use to go to market by my Hero cycle and used to buy vegetables.”

Note : still talking about my life and upbringing

31. Message posted on FB Tuesday, November 1, 2016 at 9:29am UTC+05:30

“I never used to ask for money even if I needed. My parents realized that they decided to hand-over key of Almirah in which money was kept to me in when I was in class 3. Mom said, “You don't have to explain why you need money, just tell us how much you have taken”. I am sure they might have monitored me initially, I also never misused money and only taken the amount I needed. My needs were small, so Parents never asked me why I did take money from Almirah.”

32. Message posted on FB Tuesday, November 1, 2016 at 11:02am UTC+05:30

“When I was teenager I used to read two magazines every month, first was सुमन सौरभ and second was विज्ञान प्रगति. I used to write poems secretly and never published them until few years back when I posted some of them on my Hindi blog. The reason I never published them because mom didn't like it. My first creation that was published was a riddle in सुमन सौरभ and won first prize. It was published when I was in class 6. The riddle was - “ऐसी कौन सी चीज़ है जिसको जितना काटो वो उतना ही बड़ा होता जाता है?” Answer was “गड्डू”.

33. Message posted on FB Tuesday, November 1, 2016 at 11:19am UTC+05:30

“My first stage experience was in class 6, when I wrote, directed and acted (with few other actors as well) a play in school days. Play was highly appreciated by audience.”

34. Message posted on FB Tuesday, November 1, 2016 at 5:28pm UTC+05:30

“After Intermediate of Science I wanted to pursue career in Physics. But it was mom's desire that I should pursue Engineering. I never liked engineering. In BIT days, I only studied so much that I secure distinction. Rest of the time was devoted in College Magazine, Rastrabhasa Parisad, extracurricular activities and campus politics. Extracurricular activities included quiz, extempore, acting, creative writing, fancy dress competition and dancing on stage. In Roorkee days, only studied that much so that I didn't lose scholarship. Rest of the time was devoted in preparation of IES. Which I missed my 10 marks in 1st attempt.”

Note : talking about life continues

 "My English started with class 6 and it was not good. In class 6, teacher asked me to translate "वर्षा हो रही है" in English. I said "Rain is raining". I was wrong and was punished. He explained correct translation is "It Rains.". With each passing year it improved slowly. In class 10, I worked on it and built vocabulary significantly. But, even now I am still trying to improve my English."

 "Father Arjun Prasad was in Bihar Government and transferable job so I attended a lot of school. My first school was St Josheph Patna. Where I studied in KG and UKG. In UKG I secured 3rd position. From class 1 to class 4 I studied in Marwari School, Ghatshila. I attended Rajkiya Madhya, Vidyalaya, Hinoo Basti, Hinoo in class 5. Class 6 was from Hinoo United, Hinoo. From class 7 to class 10, I studied in Don Bosco, Hesag, Hatia. From class 1 to class 10 I didn't face any competition and always secured 1st position. First time, I faced competition was in I.sc at St. Xaivers college. In first class test in physics my rank was after more than 350 students. It was mainly due to moving from Hindi medium to English medium. I worked hard and my final rank in St. Xaviers was 3rd in final exams and 20th overall"

 "My sixth teacher was Chirag Patel. He was my colleague at Apogee Networks (Evident Software). I learned about probes and networking from him. I also learned about configuring Cisco routers from him. In long association I learned many technology from him."
47. Message posted on FB Wednesday, November 2, 2016 at 3:20pm UTC+05:30  
 "My career started at Tata Infotech. For first six months we were given intensive training. We had courses in C, Unix, Shell Scripting, Data structure, Relational Database, Networking and many more subjects. First project was as developer in Fortran on Unisys Mainframe. I hated Mainframe and wanted to work in open technology. So side my side me and my teammate Alok Kumar started learning Java. When teammate Vikas returned from USA. He said Mahesh(mahesh.com) had built a website bharetekkhoj.com and it was a hit among Indian Diaspora in USA. He, Alok and me contributed equally and bought first domain eDukan.com. We wanted to build an ecommerce site in Java. But soon we moved to different geographical locations and project never started. But it was my introduction to domain names. Working on mainframe gave me opportunity for six month assignment in IL, USA. It was a United Airlines Project. When completion was near, I abandoned Tata Infotech and accepted a testing position in AT&T as contractor. Although, I knew Powerbuilder and was learning Java accepted testing position as I was in hurry to leave close system and work in open system. As a tester I used to just find bugs and started suggesting fix for the bug as project was in Java and I was familiar with that. It hurt development manager ego and my manager Piyush Anoop Doshi asked me to stop it. But Piyush Anoop Doshi got impressed with my skill. Project only lasted for a month or so whole project was scrapped and whole team was laid off including Piyush Anoop Doshi."
48. Message posted on FB Wednesday, November 2, 2016 at 3:37pm UTC+05:30  
 "When Piyush Anoop Doshi joined Apogee Networks, he hired me because he knew me and was impressed with me. Working in Apogee Networks (Evident Software) was a blessing in disguise for me. I learned a lot of technology in Evident days. I learned System Administration of Windows Server, many flavors of Linux, Sun Solaris. I also learned Database administration of DB2, Oracle and Microsoft SQL Server. It gave me opportunity to learn about sniffers, probes and routers. Learned administration and use of Apache,

Tomcat and Websphere application server. Product also used Crystal report and used Crystal Enterprise for reports publishing. I configured Crystal Enterprise on Windows, Linux and Solaris with different flavor databases. It was my achievement that I configured Crystal Enterprise on Solaris with OCI driver. For use of project we needed test setup of Microsoft Exchange. So learned Active Directory and configured Microsoft Exchange for test lab. Our production Exchange server got corrupted and system Administrator was fired. I was given task for disaster recovery of production Exchange Server. I successfully completed it in 4 days and recovered more than 99% of emails. I also widely used Shell Scripting and Vbscripting for different task. Used and administered MQ Series. Used and learned many other things during more than 6 year association with Apogee Networks (Evident Software)."

"While working in Evident my digital intoxication continued and at home started buying and selling domains. Automated Internet Explorer and wrote a VBscript on WSH to catch .com domains before it became a Structured Industry. Caught many 3 Letters domains and Vigour dot com. Also, learned PHP and Mysql and used Xoops, Joomla, Wordpress and created numerous amateur looking websites. In NJ even at home I had 5 computers and I had a computer lab at home."

**NOTE: At that time FB has banned all my name so to bypass their filter I did use vigour do com instead of vigour.com**

"While I was working in Apogee I decided to register my own firm and registered Vigour Solutions Inc in 2002, in NJ. I choose the name because I had Vigour dot com. I wanted to start a company who specializes in Open Source Solutions. I needed investment but didn't know any investor. So planned to fund it from personal savings, domain income and websites incomes. By July 2005, I had more than 100 K cash in my account. But that was not enough to start the venture I was looking for 500 K or more. So, in 2005 I closed Vigour Solutions Inc."

"In 2006, a adult website bollywoodnationxxx dot com expired. I caught it and parked at Sedo. It was generating some revenue. In 2006, another big adult website nangabollywood dot com expired and domain was caught by Snapnames. Based on Alexa rank of bollywoodnationxxx dot com and nangabollywood dot com, I estimated traffic. I did bid for nangabollywood dot com and was the highest bidder. Bid price was around 23k. I requested Snapnames to not disclose it to domain world. As I didn't want to be known as adult domain name investor. I parked the domain at Sedo. Domain was generating more than 100 USD per day. It was significant and I decided to leave USA return India and pursue domaining full time. I told that to colleague Mike Lee. After that, some one tried to put buyingusedcar dot net in my GoDaddy account and fabricate me in domain theft. Subsequent events made me to run away from USA. While I returned India I was still making more than 100 USD/day from nangabollywood dot com. At some point in time Google who is primary upstream ad provider at Sedo had a policy change and banned adult domains from domain parking and revenue of nangabollywood dot com declined significantly as it became dependent on secondary upstream provider which is not as good as Google. Even by that time I made more than 35 K from nangabollywood dot com. which was not bad for 23 K investment."

"In childhood, I was very shy guy. My two cousins were studying at St. Joseph Patna. It was primarily a girls school and boys were allowed till class 2. My uncle took me to St. Joseph for admission. Principle mother asked me "तुम्हारा नाम क्या है?" I didn't reply. She again asked. "अपना नाम जानते हो?" I nodded in affirmative. She said "तो बताओ." I didn't reply. She asked, "पापा का नाम क्या है?" I didn't reply. She asked again "पापा का नाम जानते हो?" I nodded in affirmative. "तो बताओ" I didn't reply. She said. "ये बगुले की तरह सर हिलाता है, बोलता कुछ नहीं है इसको ले के क्या करेंगे." Uncle requested her to admit in KG and family would work on me. I was admitted. My cousin Chitra Sinha who was studying in UKG I was allowed to sit with me in KG and guided me for 2 months or so."

"The first girl I liked was studying in Electrical in BIT days. But she had already started loving a sportsman. so it didn't work out. Still, we are friends. Second girl I liked was my first GF. She was studying Computer Science and was very beautiful. She was also very simple. The thing I liked most about her was that she didn't us make up. We couldn't marry because we were from different sub-caste and her father wanted to marry her in her own sub-caste. I also tried to runaway with her as she had indicated when we met last time in Ranchi at her brother's place. She changed her mind when we actually reached her home. It was a perfect plan, police was managed, arya samaj madir was managed in Delhi. It didn't work out as she changed her mind."

Note : Since I am "most eligible bachelor" so I did start talking about my love life.

56. Note : I did post something about Second girl in my life and my first GF, but it looks like someone has deleted that post.

"The third girl I liked was a girl I met in Tata Infotech. She was Punjabi. Meaning of her name was "beautiful eyes", she also used to ride same company bus as me. When first time no one was sitting besides her in bus, I sat. Asked her "do you know meaning of word 'anjan'? She replied no. I said "I means काजल".I further said "How eyes can be beautiful without anjan,You are incomplete without me." We had a intelligent chat. She was very beautiful and intelligent. A sardar always used to escort her where ever she go.So I was not getting second opportunity to had a conversation with her.So, I proposed her via company email, she declined my proposal politely.We still are friends."

"When I moved to NJ,I didn't have social life. First, I wanted to sister get married. After mom's death things changed and I decided to socialize. The fifth girl whom I liked was in NJ. I posted a creative ad on website Sulekha.com. She found it interesting and intelligent. She was so impressed with Ad that she couldn't resist and she called on my mobile within one hour of ad post instead of first contacting via email. She was a Sindhi.We met next day. She was more beautiful than my first GF and very simple like my first GF. I thought she would be perfect replacement of my first GF. She had a prejudice that south Indians are more intelligent. When we met based on my skin color she asked if I was a south Indian.When I replied I am Bihari,she didn't know about Bihar. She was from Mumbai.I consider her as my second GF although friendship lasted for less than a month. When they asked her to break friendship,In evening she called. No one was at home and I asked her to visit my place. That evening I wanted to propose her and beg to marry me. I didn't want to lose time as in past someone else proposed the girl I liked before me.But she replied "You can't order me you have to request me" and cut the phone. She started avoiding me and taking my calls. One of the reason she gave for breaking the friendship was "Product is not as good as advertisement". I was very hurt by "breakup" and wanted to take revenge and moved another girl as my roommate even though I never loved her."

She was beautiful and simple.Even she had soft corner for me.When they asked her to avoid contacting me she was trying to help me.But she couldn't as once I had said in group that I trust nobody blindly.She moved to Mumbai and got married."

"The 7th girl whom I liked was my colleague at Ismart Panche. She was also my cab mate.She was Punjabi. She was beautiful and simple. Although, I liked her secretly I never disclosed it to her and never encouraged her and avoided talking to her in Ismart-panache days.When she used to sit at back sit I used to sit at front sit.Because I didn't want to complicate matter at work place.After I was divorced both of us had quit Ismart-Panche. She was in Pune at that time. She had her phone number in her FB profile. I called her. She asked me how I got her number, I told that I got it from FB. After that,she changed her number. I sent numerous email to her,which she read but didn't reply. I know that because to verify that I sent a online greetings card and got read receipt. She also admired me secretly and was told to not talk to me because she was a weak link."

"I never told "I Love You." to any person I liked or loved in life. Instead, I communicated in symbols and actions.I also had some means to verify that other person liked or loved me. Even I checked mom periodically that she loved me or not, which is reflected in my poem. "It is story from BIT Sindri. Session of BIT was late for more than 2 decades.Director I. D. P. Singh wanted to take corrective action and decided for final year exams on time, even if courses were not completed. Mechanical HOD Rameshwari Prasad was a influential voice in board and he first wanted courses to be completed. Students of Mechanical had great respect for their HOD and they started a signature campaign that first courses should be completed and exams should be postponed. My brilliant classmate Kumar Uday Krishna came to me and asked "what you want? I replied in one word "Exams".He said lets go and meet director. We reached director chamber in evening. Uday said to director "Sir, we want exams".Director I.D.P Singh replied "Even I want exams but students are running signature campaign.".Uday Replied "Sir, even we can run signature campaign." We returned to hostel and planned signature campaign. We talked leader of students from every branch and left Mechanical hostel and convinced them that exams are in greater interest of batch. Metallurgy already had application and signature ready that they didn't want exam. My good friends Anish and Kundan were running campaign in Metallurgy. We convinced them to change the application that they want exams and left signatures intact. Within 2 hours we

had applications from every department that they want exams except Mechanical. In morning we handed over applications and signatures to Director I.D.P Singh. In next meeting, Rameshwari Prasad was told that since all branches want exams it will be on schedule if he wanted exams of Mechanical will be postponed. Finally, Rameshwari Prasad changed mind and exams happened on time. After that, session got corrected and exams happens on time till date. Uday also told me "Don't tell anyone else Baba (guys with year back) will beat us.". And it became best kept secret of our batch. Uday manipulated the process in interest of batch in general and BIT in particular. So he has same contribution as director in correcting session. He never taken any credit for that."

73. Posted on Facebook and Twitter – Someone has deleted message from FB

"I have been poisoned "

**Background My food was poisoned and it was slow poison. I started feeling dizzy and senses were getting slow. Reason for poisoning was message number 71. Julian Assange did tell everything in interview but since I have a very large number of lurkers on FB and twitter pages. I was poisoned so that I could not have damaged chances of Hillary Clinton to become President of USA. Number of people who read my FB and twitter are in millions. I successfully vomited poison with food twice and I survived.**

74. Posted on FB and twitter as I thought I would not survive.

"all the best, world."

75. I was not afraid of death but was happy that I have taken revenge against CIA and some politicians. SO I used bad word intended for conspirators

"all said and done. "Don't teach your father how to f\*\*k your mother""

76." Posted on FB and twitter

"Retiring for today. Whole world will change by morning. Good night."

**Aftermath** : I successfully relay the message of Julian Assange to everyone who were reading my post. So I should also get some credit for educating a few million American voter and against all odds Trump defeated Hillary.

On 5th of November 2016, I was admitted in CIP Ranchi, it was forced hospitalization. I did stay in CIP ranchi and Param mitra sadan for almost 8-9 months. They misused father for admissions because he is the weak link.
